**From the Desk of
Director of Evaluation**

Dear Colleagues,

I extend my warmest greetings for the 2021-2022 academic year. We are thrilled to continue the journey of academic excellence in this new year. In 2021, we witnessed significant advancements in our digital landscape, ensuring that academic processes are more accessible and convenient for our students. The integration of DigiLocker, the introduction of the dedicated Student Portal, and the establishment of the Academic Bank of Credits (ABC) have enhanced the way we manage academic records and provide essential resources. As we move forward, these transformative improvements remain integral to our commitment to academic excellence. We are excited to embrace the new academic year, building on the successes of the past and setting our sights on further growth and achievement.

**--Prof. E. Keshava Reddy
Director of Evaluation**

1. Introduction

The University's core activities revolve around examination management, result declaration, and certificate issuance, which are vital functions. The Examination Branch serves as the foundation of JNTUA, ensuring that examinations are conducted fairly and promptly. To achieve this, it is imperative that all examination-related rules and procedures are meticulously defined, leaving no room for ambiguity or assumptions.

The current examination system is designed to oversee the efficient and lawful administration of University examinations, encompassing Undergraduate (UG), Postgraduate (PG), and Doctor of Philosophy (Ph.D.) programs. It outlines the roles and responsibilities of individuals involved, the protocols to be followed, and the various steps necessary at all levels throughout the examination process. Standardized formats have been established for all examination-related forms and documentation. Additionally, measures to prevent unfair practices and misconduct are detailed, along with corresponding penalties and sanctions.

Vision

To be a pioneering Examination Branch that leverages technology and innovation to ensure fair, efficient, and secure evaluation processes, enriching the academic journey of our students.

Mission

- **Digital Transformation:** In the academic year 2021-2022, we commit to advancing our digital transformation journey, making academic processes more accessible and convenient for our students. We continue to embrace technology to enhance efficiency and provide a seamless experience.
- **Student-Centric Approach:** We aim to provide a dedicated Student Portal for improved access to academic information, ensuring that our students have the resources they need for academic success at their fingertips.
- **Academic Record Management:** We recognize the importance of maintaining the integrity and security of academic records. The Academic Bank of Credits (ABC), introduced in 2021, continues to be the cornerstone of academic record management.
